Thanks Angeles. This covers the relevant topics.

I see the main meeting objectives as coming to an understanding on:

- 1) on site schedule and who is doing what between now and March 2017, and
- 2) key messages for the next public meeting.

We also need to understand when BLM and EPA will come to a decision on lead federal agency status. Depending on that discussion, in the next few months I suggest we start planning for reaching funding agreements associated with OU-8 remedial work.
